

Use the following questions as prompts:

- Did you feel that anyone took the lead? Or did the whole team work towards the goal?
- Is there anyone who feels they did not get as involved as they could have done?
- How much motivation did you have to complete the task? Who provided that motivation?
- How well do you think you have done?
- Is there anyway that the brief could have been handled better?
- If you had been allocated a specific leader, would you have been more effective?
